AIX User meetings

A very useful new offering - webinars for AIX Users, Systems Administrators, Operators and those interested in everything AIX-y. <https://www.ibm.com/support/pages/aix-user-meetings>

At the moment, these are experimental events to gauge interest in having regular online meetings via webex. It is planned they will include updates on regular topics, new important updates plus a chance to talk / ask questions / make suggestions etc.

The next meeting is:

6/10/20 at 22:00 SGT

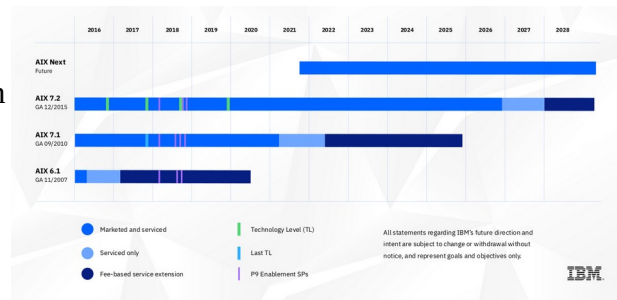

AIX Strategy road map

Download IBM AIX: An executive guide to the strategy and roadmap for the AIX Operating System and learn the newest AIX innovations:

<https://www.ibm.com/account/reg/signup?formid=urx-39826>

Don't forget that the IBM AIX Community badge open to non-IBMers

See: <https://www.ibm.com/downloads/cas/ZD7VOGXE>

IBM i strategy and roadmap

Download the executive guide to IBM's strategy and roadmap for its integrated operating environment for Power Systems:

IDC Vendor Spotlight on the right OS for operational excellence

As businesses select IT modernisation plans, IDC explores the trends driving data centre transformation. Choosing the right IT infrastructure to revitalise your customer experiences, products and services, means choosing the right operating system.

In this IDC report, you'll learn about:

- The UNIX competitive landscape
- Latest features and updates in AIX
- Tips on operating your hybrid cloud infrastructure

Read IDC's "The Importance of the Operating System When Modernising on Hybrid Multi-cloud" and see why having the right OS for IT can greatly impact your business.
